

Facebook

Joshua Dinnerman's it-techview.com is going to make aware you of the latest features of the Facebook. Facebook users are really satisfied with these new updates. Let's discuss them briefly.

- Facebook has finally released its long-awaited message removal feature. Following in the footsteps of Instagram, WhatsApp and Snapchat, Facebook now lets users remove messages from a chat whenever they want. It's time to remove all those embarrassing messages or messages you have sent mistakenly.
- Facebook Stories ads are a lucrative feature for those who are interested in social media marketing or online business promotion. Users can now enable ads in their Stories. Although Facebook Stories were not so popular at first, with the help of this feature their popularity is growing quickly. This feature is a goldmine for those who are running an online business.
- Facebook Story ads are not the only thing you can use to promote your online business. Facebook has introduced a feature in which users can promote their businesses with the help of stickers. Yes, you can now add product stickers to your Facebook posts or Facebook Stories. You can even add a shopping bag sticker as well. One tap on that sticker and Facebook will direct the user to the product details.

Facebook is not only for fun; it is becoming a great platform for promotion as well. Many Facebook users who have online businesses are earning \$100 every day, which much of those earnings coming from ads and views.
