

Samsung

Joshua Dinnerman's it-techview.com report is going to reveal all on the latest Samsung models, which have shaken up the smartphone market. Samsung introduced some amazing new features, which many other mobile phones don't yet have. The most important thing that Samsung introduced is its new foldable phone, the Galaxy Fold. Samsung introduced four new flagship phones, the Galaxy S10, S10 Plus, S10 E and Samsung Fold. Let us talk about these phones in detail.

- Samsung equipped its S series with a bezel-less screen it calls a Cinematic Infinity Display. The amazing front camera is integrated into the screen and only covers a small, specific area. Let us compare the features of Samsung Galaxy S10, S10 Plus and S10 E.

Samsung Galaxy S10	Samsung Galaxy S10 Plus	Samsung Galaxy 10E
